

Vivian Chicilo

Public Appointee

Vivian is a registered nurse who received her education at the University Hospital (Saskatoon) School of Nursing. Her career spanned over 40 years. Most of it in Community Health --initially in Public Health and then as a Home Care Coordinator in the Canora area. She was actively involved at the district and provincial level as health care went through restructuring and district formation. Vivian has served in different executive positions on the local chapter of the SRNA, served on the Canora Housing Authority and on the Recreation Board.

During this time, Vivian and her husband Leo were actively engaged in farming and raising three sons. This meant a balancing act as they juggled their work with many sporting events and participating in life in a small town.

Upon selling their farm and retiring from nursing Vivian and her husband moved to Regina to be closer to family, planes, trains and other amenities of city life. After a couple of years of adjustment and changing pace, Vivian became restless and got drawn back to the workforce with Personal Care Homes on a part time basis and is also a volunteer for Regina Palliative Care and is the Public Rep on the SDA Board. These activities provides her with continued learning opportunities and purpose.
