
Krista Loessl

MAL of Legislation

Krista received her Bachelor of Science in Nutrition from the University of Saskatchewan and completed her internship in Calgary, AB. She is currently working in the Saskatoon Health Region for the Kidney Health Program and LiveWell Chronic Disease Management Program. Krista has worked in several different positions in rural Saskatchewan and in northern First Nation communities. She has also been actively involved in various volunteer capacities with the Canadian Diabetes Association and the Kidney Foundation of Canada. Krista has a passion for working for with people with chronic diseases.

Krista enjoys spending time with her family including her busy six-year old son and three-year old daughter. She enjoys traveling, camping and cooking as well as being active with her kids.

Krista looks forward to being involved with the SDA board.
