Introduction

Registered Dietitians are responsible and accountable for their continuing competence in order to provide safe, ethical professional services. The continuing competence program (CCP) of the Saskatchewan College of Dietitians (SCD) is a systematic process for dietitians to reflect on their practice, set learning goals and document participation in and impact of professional learning activities on dietetic competence. Because participation in the CCP is mandatory, the public can trust that dietitians are committed to maintaining their personal competence and that they take this obligation seriously.

The SCD CCP includes annual self-assessment, development of a learning plan and a report on the implementation of your learning plan and its impact on your practice at the end of the licensing year. A random audit provides further quality assurance that the continuing competence program is being used as it was designed. This workbook is intended to assist you in your continuing competence submission. **Please remember this is a workbook for your own use, and that you will still need to submit your self-assessment and learning goals through the members' only side of the SCD website (www.saskdietitians.org) to do your license renewal.**

Retain your continuing competence documentation for a minimum of five years, in the event you are randomly selected to participate in the quality assurance audit of the continuing competence program.

Self-Assessment

Dietitians are skilled at conducting assessments of their clients, but may be less comfortable with conducting a critical review of their own dietetic practice. The goal of self-assessment is to reflect on your dietetic competency and to continually grow in your practice as a professional by identifying what you do well and areas you can improve upon.

SCD's self-assessment has two parts. The first part is a practice profile and the second is a comparison against the standards of practice.

The self-assessment forms that you use to develop your learning plan are confidential. You are required to complete the self-assessment to complete your licence renewal, but it is not reviewed by SCD. If you are among those selected for the quality assurance audit, you will be required to submit your practice reflection as part of your portfolio for review by a member of the Professional Standards Committee of SCD. The auditors who review your documentation have signed confidentiality agreements with SCD and the purpose of them looking at the document is to assess whether you have completed the self-assessment and that there is a connection between your self-assessment and the learning goals.

Part 1- Practice Profile questions

The **practice profile questions** are intended to get you thinking about your current dietetic practice and what knowledge/skills you will need to be a competent dietitian now and in the future.

- 1. What are my current dietetic practice area(s) and/or professional interests?** If you have multiple areas of practice, list them all. If you are not currently employed or volunteering in dietetics, describe areas of interest within dietetics.
- 2. Who are my clients and do I interact with them in a way that is inclusive and respectful of their cultural beliefs, values and practices?** Consider ways you could make your dietetic practice more inclusive and culturally safe.
- 3. What biases, assumptions, beliefs and privileges do I bring to my dietetic practice?** Consider how this influences your interactions with others.
- 4. Does my dietetic practice involve specialized areas of knowledge and/or include performance of any high-risk activities?** Consider what knowledge and skills are needed to remain competent in this specialized area of practice.
- 5. Have I or will I experience any transitions in the upcoming year (ie. first job, new job, change in focus of work or going on/returning from a leave)?** If applicable, consider what supports and resources will be needed to successfully manage this transition.
- 6. What trends (professional, societal, environmental) are affecting or will affect my dietetic practice in the short and long term?** Consider trends that are impacting or may impact the dietetics profession as well as factors such as workplace change.
- 7. What knowledge and/or skills do I need to respond to stay competent in my dietetic practice and/or respond to any of the issues I have identified?**

Part 2- Self-Assessment relative to the SCD Standards of Practice

The self-assessment tool provides SCD members with a systematic way to compare their practice to a defined standard for the dietetic profession. The rating scale is N/A if not applicable, "C" if

competent and ‘D’ if area for further development. If you self-assess as a D, it does not mean you are not competent, it is only a way to flag that this topic/indicator is an area you would like to further develop. **If you self-assess an indicator as a D, you should be setting a learning goal related to this topic or be able to explain why you did not prioritize.** The current self-assessment tool is the SCD Standards of Practice and are found in Appendix A and [here](#). There are 15 standards that you will self-assess against. **For the purposes of the self-assessment, the term “client” is used in a broad context and could refer to individual clients, communities, staff or other health professionals.** If you hold more than one job, you may use the notes section to indicate which position you are referring to for that specific competency. Similarly, use the notes section at the bottom of each page to offer your comments on why or why not you are choosing to set a goal in relation to a specific indicator.

Although not mandatory, but you may also **voluntarily seek feedback from others** (ie. employer, colleagues, clients) or consult a recent performance appraisal to identify areas for improvement and topics for your learning plan.

i How to complete your self-assessment

- Complete Part 1 (Practice Profile) to think about your dietetic practice and what knowledge and skills you will need to be competent now and in the future.
- Complete Part 2 (Self-Assessment Tool) to assess against the standards for dietetic practice. If you self-assess an indicator as “D” prioritize this as a topic for your learning goals or be able to explain why you did not set a goal related to this topic.

Submitting your Self-Assessment to SCD

Select “My Self-Assessment” from the Members Only side of SCD website and select the correct year from the drop-down menu. As you complete each section you can either continue to next section, return to previous page or save and come back later.

If you select to save and come back later, the website will ask for an email address to send a link that you will then use to return to your self-assessment. The link expires in 30 days, so you will need to return and complete in that time frame. We suggest that you take a picture of the link before you input the email address you want it sent to in the event that it ends up in your junk email folder as SCD will not be able to retrieve it for you.

Developing a Learning Plan

After your self-assessment, the next step is to develop at least two professional development goals that address those areas that you self-identify as being important/relevant for the upcoming year.

The purpose of articulating a learning goal is to build commitment and focus your efforts on a topic that you identified as being relevant to your practice.

In 2024 we revised the leading questions to include drop down/check box options:

Context of Learning Need: Based on my self-assessment, this learning goals is related to (drop down menu of practice profile questions 1-7 and professional standards 1-14).

Learning Goal: Specific to the practice profile question or professional standard identified above, this licensing year, my learning goal is...

Activities to meet my learning goal: Identify learning activities you have planned/considered for this goal (check all that apply)

End results expected: The outcomes I expect from this learning are (check all that apply)

Creating Learning Goals

Make the connection between your self-assessment and the learning plan by setting a learning goal related to any indicator you self-assessed as a “D” (or area for development).

If you do not set a goal related to any indicator you rated as D, be prepared to offer explanation as to why not. If you self-identify a specific topic as a learning priority, you should actively plan and take steps to meet that learning need, not just indicate that you will take note of opportunities as they present themselves. The point of having a learning goal is that it is **intentional** and **responsive** to an identified learning need. You may also choose to seek feedback from others to help in the development of your learning goals, but it is not mandatory.

When creating your learning goals, remember:

- Goals must be completed within the CCP year, so make it focused and not just a broad topic.
- Goals must relate to enhancing knowledge and skills in a specific area related to dietetic practice. Goals should not solely be related to completion of a work task without identified where the learning will occur. Yes, there is learning in doing, but you need to clearly identify where/how learning will occur.
- If you are carrying over a goal from a previous year, you need to identify that and think about how it will be different (eg. more focused/specific)
- Goals are not based on waiting for an activity (for example, if a conference on the topic comes up). The CCP is about being **intentional** and **planning learning activities** to meet a learning need you have self identified through reflective practice.
- Goals may change throughout the year and you may need to update or submit a revised learning goal(s) if needed.

SMART Learning Goals

Your learning plan starts with developing strong learning goals. These goals give your learning purpose and direction. In the words of Don Berwick- **some is not a number and soon is not a time!**

It is important to make time to plan and write your learning goals. There are 5 aspects to setting SMART goals. SMART is an acronym that stands for:

Specific and Strategic	A specific goal explains what you will learn and why.
Measurable	A measurable goal identifies what the outcome of the learning will be once the goal is achieved and how you will track or evaluate what you have learned.
Attainable	An attainable goal has strategies and outcomes that can reasonably be expected within the context and time frame.
Relevant and Results-orientated	A relevant goal is related to your learning needs as identified through self-reflection and assessment. It is orientated to building professional practice skills and increasing your dietetic competency.
Time-bound	A time-bound goal has a timeline for when the goal should be achieved.

We encourage you to use the **SMART Goal Worksheet** on the next page to help you get started creating SMART goals and/or watch our **SMART Goal Video** accessed [here](#).

Learning goals versus workplace tasks or personal goals

Remember that the learning goals you are setting are part of the continuing competence program for your profession and as such should focus on learning in a specific area related to dietetic practice and dietetic competency. Goals should NOT solely relate to fulfilling job related tasks but should clearly identify and describe what you are going to learn about, not just the tasks or the end product.

Taking a workplace task and make it a learning goal:

Phrased as a work task(inadequately written): Create a new dining standard for LTC.

Changing the wording to be a SMART learning goal: Between April 2024 and March 2025 I am going to increase my knowledge of best practices in dining standards in long term care settings by reviewing national standards and recent research in this area. This will allow me to create a new dining standard for the facility where I work.

SMART Goal Worksheet

This worksheet takes you through the 5 steps of setting SMART goals. To start, simply list a learning need. Then answer the guiding questions to ensure you have the qualities of a SMART goal. Lastly, rewrite your SMART learning goal statement.

Name a general learning need or topic you want to learn about: _____

Specific: What am I looking to achieve within this broad topic area? What specifically do I want/need to learn about? What can reasonably be accomplished within a 1 year time frame? Where can I seek out education opportunities? What learning activities that would meet this need?

Measurable: How will I measure whether or not my goal is complete? What is my baseline and what metrics (quantitative or qualitative) could I use to demonstrate improvement and know if I have made progress to or completed my goal?

Attainable: Can this learning and outcomes really happen? What are the potential obstacles (time, funding)? Do I have the tools needed to attain my goal?

Relevant and Results Orientated: What is the reason for this learning need and is it linked back to my self-assessment/reflection? Will working on this learning goal develop skills to contribute to my professional practice or increase my competency as a dietitian?

Time-bound: Is it realistic that I can complete these learning activities done within the next year? What is the target date to complete this goal? If this is a carry over of a goal from last year, how is it different from what I did last year?

My SMART learning goal is: _____

Tips to Avoid Common Learning Plan Problems

Composing well written learning goals takes time to reflect, assess and eventually compose. The following tips may help you avoid some of the common pitfalls of learning plan development.

Tip #1- BE SPECIFIC ON WHAT YOU WANT TO LEARN

Learning goals need to identify what you want to learn. They should specifically outline a skill or area of knowledge that you would like to develop, not just a broad topic.

Learning goal	Not appropriate	The issue	Appropriate
<i>What specific knowledge or skill do I want to learn or further enhance?</i>	Land Acknowledgment	This is a topic and not a specific skill or piece of knowledge you want to develop.	By March 31, 2025 I will learn how to provide meaningful land acknowledgments that truly reflect my desire to be an ally and meaningfully contribute to reconciliation.
Learning goal	Not appropriate	The issue	Appropriate
<i>What specific knowledge or skill do I want to learn or further enhance?</i>	Privilege	This is a topic and not a specific skill or piece of knowledge you want to develop.	By March 31, 2025 I will reflect on the power imbalances between provider and clients in health care and identify strategies to address

Tip #2- HAVE A PLAN AND NAME SPECIFIC LEARNING ACTIVITIES

Be proactive. Seek out specific learning opportunities that will help you develop or achieve each learning goal. Goals should not be based on waiting for an activity (ie. conference) to occur, but about having a plan for an identified learning need that you have identified as a priority.

Learning goal	Not appropriate	The issue	Appropriate
<i>What specific knowledge or skill do I want to learn or further enhance?</i>	Stay up to date on current nutrition topics.	This is a passive approach with no focus. It is not specific enough.	Improve my knowledge on at least two nutrition issues important to athletes.

Tip #3-BE CLEAR ON THE WHY (OUTCOME)

Have clarity on your outcome and how it is achieved as a result of your learning activities and overall learning goal. Do NOT restate the goal as the learning outcome.

Learning goal	Not appropriate	The issue	Appropriate
<i>What specific knowledge or skill do I want to learn?</i>	Become a certified diabetes educator	The certification is the outcome (designation) that you will receive at the end, but the learning goal is not specified.	Increase my knowledge and application of the diabetes clinical practice guidelines.

Tip #4- IDENTIFY INTENTIONAL LEARNING

Differentiate between employment-related tasks and professional learning goals. Many times, job activities can also be your professional learning priorities, but you must apply the learning to your continued development as a dietitian. Learning goals must focus on enhancing skills and knowledge in a specific area. Learning goals should not solely be a list of work tasks that you are going to complete in the year ahead.

Reason for learning	Not appropriate	The issue	Appropriate
<i>Why do I want to work on this? Which self-assessment question or professional standard(s) is this goal related to?</i>	Part of my job.	Being related to your job is insufficient of a reason for the learning. It needs to be specified what impact the learning goal will have on your professional development.	I am new to long term care and I know that swallowing problems are an issue. I don't want to overlook clients who require swallowing assessments.

Learning Activities

Learning activities are any **intentional** actions that you take to address your learning plan. They may be formal, informal, group or individual, provided by others or self-directed. Selecting appropriate learning activities requires careful consideration of the resources available to you, how you learn best, the type of learning activities that will help you meet your learning plan and what can reasonably be accomplished. Any activity that will help you achieve your goal is appropriate, but you need to be able to demonstrate how the activity demonstrates intentional learning. It is suggested that you try to incorporate different types of learning activities throughout your learning plan so you are not always using the same methods.

Learning activities may include, but are not limited to the following:

- Journal club / study group/video
- Webinar/pod cast
- Case studies / rounds
- Networking
- Specialty practice certification or education groups
- Clinical practice guidelines / journal review/PEN
- Conferences / courses / education sessions
- Job shadowing
- Consult subject matter experts
- Role Play for skill development
- Employer provided continuing education

Submitting your Learning Plan to SCD

Submit your learning plan online through the Members Click on “My Learning Plan” and select the correct licensing year and number of goals from the drop-down menus.

Submit your learning goal by answering the questions in each section, using the drop down menu/check/text boxes as applicable.

As part of SCD’s continuing competence program, each registrant is required to submit an annual learning plan. Please select the correct term and the appropriate number of goals from the drop down menus as a guide, fill in the details describing your learning plan for the upcoming licensing year.

For Term *

2024/2025

Number of Goals *

2

Learning Goal #1

How did you identify this learning goal? *

Based on my self-assessment, this learning goal is related to

- Practice Profile Q1- Current practice area and/or professional interest
- Practice Profile Q1- Current practice area and/or professional interest**
- Practice Profile Q2- Clients
- Practice Profile Q3- Bias, assumptions, beliefs and privileges
- Practice Profile Q4- Specialized knowledge and/or high risk activities
- Practice Profile Q5- Transitions
- Practice Profile Q6- Trends affecting dietetic practice
- Practice Profile Q7- Knowledge/Skills to stay competent in my dietetic practice
- Professional Standard 1- Advertising
- Professional Standard 2- Assessment and Interventions
- Professional Standard 3- Boundaries
- Professional Standard 4- Client Centered Services
- Professional Standard 5- Collaborative Practice
- Professional Standard 6- Communication
- Professional Standard 7- Competence
- Professional Standard 8- Conflict of Interest
- Professional Standard 9- Consent
- Professional Standard 10- Evidence-Informed Practice
- Professional Standard 11- Fees and Billing
- Professional Standard 12- Privacy/Confidentiality
- Professional Standard 14- Record Keeping

Use the first drop down menu to make the connection between your self-assessment and your learning plan. Use the drop down menu to identify which practice profile question or professional standard relates to this learning goal.

Reminder that if you self-assess in a practice profile question or rate yourself as a “D” on an indicator (indicating you have a desire to improve), you should consider setting a goal related to this standard.

Use the text box to write your learning goal. Writing down and submitting your learning goals to SCD builds commitment and focuses your resources (time, money, effort) on a topic relevant to your practice.

Click to identify learning activities you have planned or are considering related to this learning goal.

What knowledge, skills or competencies will I work in this licensing year? *

Specific to the practice profile question or professional standard identified above, between April 1-March 31 my learning goal is to...

Activities to meet my learning need *

Identify learning activities (check all that you apply) that you have planned/considered for this learning goal:

- Journal club/study group/video
- Review of clinical practice guidelines/PEN/journal review
- Webinar/podcast
- Case studies/rounds
- Conference/Course/Education Session
- Networking/Job Shadow/
- Consult subject matter expert/ environmental scan
- Role play for skill development
- Specialty practice certification or education groups
- Employer provided continuing education
- Other

End results expected *

If none of the options in the drop down menu or check box list apply, click “other” and a text box will open where you can describe how you identified your learning goal and/or your additional learning activities or outcomes.

The last question is a drop down menu to identify the outcomes/end results you expect from completing your learning plan.

Approach CCP not as another thing that needs to be done, but as an opportunity to equip yourself with the knowledge and skills you need to be competent in your dietetic practice.

Your learning plan will be subjected to further review and if the Professional Standards Committee determines it is necessary, you may be asked to revise/clarify your goal. If this occurs, your plan will be labeled “needs revision” and you will receive an email that identifies what section requires revision. If the committee deems your goal is adequate, it will be labeled as “received.”

End results expected *

What do you expect to be the outcomes from your learning? Check all that apply:

- Develop a program/process/product
- Enhanced accountability
- Enhanced critical thinking/decision making
- Improved communication skills
- Change in perception, understanding, awareness, insight or philosophy
- Improved work environment
- Increased confidence
- Increased or updated knowledge/skill/competence
- Professional skills developed
- Other

We realize that things might not always go according to plan (ie. change in job, unexpected circumstances) and you may need to change your learning goal and/or learning activities throughout the year. As you will be unable to change the wording of your learning goal once it has been marked “received”, contact the Registrar by email to have it changed.

Once your plan has been labeled as “received” additional boxes will appear on your learning plan where you can add completion details (completion summary, impact on practice). Read more about this in the section on Evaluation and Impact on page 12.

The screenshot shows a 'Workflow' section with the following details: Entry ID: 6803, Submitted: January 31, 2018 at 7:24 pm, Last updated: November 23, 2018 at 4:08 pm, Submitted by: glmoore@sasktel.net, Status: Pending. Below this is a 'Received (Pending Input)' section with User: glmoore@sasktel.net (Pending) and a 'Note' field. At the bottom, there are two radio buttons: 'Save submission' (selected) and 'Submit for review', followed by a 'SUBMIT' button. A blue arrow points from the 'Save submission' radio button to the 'SUBMIT' button, and another blue arrow points from the 'Submit for review' radio button to the 'SUBMIT' button.

It should also be noted that you can save but not submit your completion details by selecting the radio button “save submission” and then clicking on the submit button. This will allow you to add completion details, but still keep your learning plan open so you can add additional details prior to submitting to SCD for review. You need to do both steps to save your work.

When you submit your completion details, your learning plan will be labeled “pending completion” until it has been reviewed by a member of the professional standards committee for completeness ensure that you have included completion details and reflection on impact and then it will be labeled “complete”.

Documenting Progress

An important element of SCD’s continuing competence program involves keeping track of and documenting learning activities you have undertaken to complete your learning goal. The learning log examples provided in Appendix C and D are potential tools you could use to document your activities and verification/supporting documentation. The use of these forms is not mandatory, but documentation that demonstrates learning goals have been achieved will be required from all members selected for the continuing competence quality assurance audit described on page 14-15.

How to keep a learning log

- Document your learning activities related to your learning goals. Two examples of learning logs are provided in Appendix C and D. Even though SCD does not require you to submit detailed information on your learning activities in order to renew your license, it is very important that you track and retain this information, as those selected for the quality assurance audit will be required to produce this documentation.

Evaluation and Impact

Evaluation and reflection on impact of learning are the final steps in the SCD Continuing Competence program. As part of your license renewal, you are required to evaluate your learning plan for the current year by answering the following questions:

This learning goal is (Drop down menu of: Complete, Partially complete or Not complete).

You have indicated this goal is partially or not complete. Please provide explanation and resolution (eg. Planned learning activity not available plans to carry forth this goal into next year).

As a result of working on this learning goal, how has my professional practice and dietetic competence changed or been enhanced?

Completion Details

The screenshot shows a web form titled 'Completion progress'. Below the title, it says 'This learning goal is:'. There is a dropdown menu with 'Complete' selected. The dropdown menu is open, showing three options: 'Complete', 'Partially complete', and 'Not complete'. The word 'practice' is partially visible on the right side of the dropdown menu.

From the drop-down menu identify if this learning goal is complete, partially complete or not complete.

If you indicate a learning goal is partially complete or not complete, a new box will open up and ask you to provide an explanation as to why this goal has not been met. In this box, you are expected to provide details as to why this learning goal is not met and any relevant details. For

example, if this goal is not met because the training you had hoped to take wasn't offered within the given time frame, you can indicate your plan for when you will take the training and when you therefore anticipate this goal to be complete. Or if your goal is partially complete and you want to continue to work on it in the next continuing competence program year, indicate that. Please note that if you are carrying forward a learning goal, you still need to type the statements into the learning plan for the next year. In doing so, try to be very specific about the learning activities you will complete in that timeframe.

Impact on Practice

The last learning plan question is intended to get you to reflect on what you have learned from undertaking that learning goal. If you think of the learning activities as the "input" then this section is for documenting the "output" or how it will impact on your practice and dietetic competency.

When you answer the question about "impact on practice", be specific about your new knowledge/skills, what you are going to do differently, how you are going to change/improve your practice and who will be impacted as a result of working on this learning opportunity. Listing your insights (e.g. What went well, areas that still need attention) demonstrates that you have reflected and brought the continuing competence process full circle.

i How to complete a self-reflection on the impact on practice

- What specific knowledge or skill did I acquire? Was the outcome of my learning valuable to me- why or why not? How will my practice be different?
- Who (aside from me) has benefited or will benefit from me working on this learning goal (ie. clients, colleagues, students)?
- How has this contributed to maintaining or enhancing my competence as a dietitian?
- Is this learning need complete? If not, what still needs attention and why?

Quality Assurance Audit

There is a quality assurance component to the continuing competence program that includes audit of 5% of the membership. If you are selected for the audit, you will receive a letter from SCD that will tell you what you need to submit by when. Members are typically provided 4 weeks in which to submit their portfolios. SCD is moving towards a paperless system, whereby members upload the required documentation into a zip folder. The audit is undertaken annually in April. Retain your continuing competence documentation for a minimum of five (5) years.

i How long are you required to retain CCP supporting documentation?

- SCD may request to review your CCP supporting documentation at any time. Keep them for a **minimum of five years. You are responsible for the retention of your documentation.**

The portfolio you submit to SCD for the audit must include a summary document that includes additional reflection on your submission. SCD will provide the summary template that includes self-reflection questions for each learning goal.

The supporting documentation/evidence that members submit for the audit will vary, depending on what is appropriate and relevant for their specific goals. When you are setting and working on your learning goals, think about what type of supporting documentation you could use to verify your participation in a learning activity.

Some examples of supporting documentation/evidence may include but are not limited to:

- Agendas and/or certificates of courses/workshops/lectures completed
- Degrees or diplomas attained and/or record of completion of academic study/certification
- Documentation and reflection of discussions had with colleagues as a method of learning,
- References of journal articles/ books/PEN pathways read with a summary of insights gained
- Documentation of the discussion from journal clubs and notation of critical reflections
- A summary of the information and insights gained from in-services, webinar and rounds

If you are selected for the quality assurance audit, a trained auditor will assess your submission and evaluate it on its ability to provide answers to the following questions:

1. Were the practice profile questions completed?
2. Has the Self-Assessment form completed?
3. Does the member identify any “D” Improvement Priorities in the self-assessment tool? If so, have they included them as a priority and included them as part of their Learning Plan or offered explanation if they did not do so?
4. Are the goal statements clear as to what knowledge, skills or competencies the member wanted to learn during this licensing year?
5. Does the supporting documentation verify the learning activities?
6. If a goal is a “carryover” from prior year, does the evidence or documentation show progression towards completion of the goal?
7. Is there evidence that the member reflected and/or evaluated the impact of the learning on their practice?
8. Is there a connection between the practice profile, self-assessment and the learning plan?
9. Does the learning relate to professional practice and dietetic competency?
10. Does the supporting documentation and/or reflection indicate learning has occurred?

SCD’s continuing competence program is an opportunity for members to reflect on their practice and take action to improve continually and to stay competent in their dietetic practice. This workbook is intended to support you as you move through the process and offer resources and examples that may be helpful.

Summary:

1. Use the self-assessment to generate topics for your learning plan.
2. Ensure your goal is a learning goal.
3. Write your goal with SMART characteristics in mind.
4. Complete learning activities within the CCP year (April 1-March 31).
5. During reflection, please be clear and concise in your writing. Avoid the use of acronyms or terms that may not be understood by others.
6. Ensure your goals and activities are not solely job-related duties or responsibilities, there needs to be clearly identifiable learning, not just doing.
7. As part of renewal, fill in completion details on existing plan before submitting self-assessment and learning plan for the next year.
8. Retain your completed CCP documentation for a minimum of five years.

Appendix A- SCD CCP Self-Assessment Form Scale: c=competent d=area for further development n/a= not applicable

Standard 1- Assessment and Intervention

Registered Dietitians competently select and interpret assessment data, develop goals/plans, and implement appropriate interventions in the delivery of client-centered, **professional services**.

To demonstrate this standard, the registered dietitian will:

Indicator	C	D	N/A
a) Obtain clients' consent for professional services.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b) Obtain, review, and interpret relevant assessment data .	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c) Collaborate and communicate with clients to determine goals/plans and interventions.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d) Implement, coordinate, and document the delivery of client-centred interventions.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
e) Monitor, evaluate, and document the impact of interventions in achieving identified outcomes, proposing alternative interventions when goals have not been achieved.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
f) Continue to provide/offer professional services until no longer required, the client is transferred, discharged, self-managing, declines care, another provider has assumed responsibility or the Dietitian determines further services are not required.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Standard 2- Boundaries

Registered Dietitians maintain clear and appropriate **professional boundaries** with clients and team members.

To demonstrate this standard, the registered dietitian will:

Indicator	C	D	N/A
a) Be sensitive to their position of relative power or influence in professional relationships and not use this status to take physical, emotional, sexual or financial advantage of clients and team members.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b) Establish and maintain appropriate boundaries in relationships with clients and team members.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c) Respect, establish, and manage effectively the boundaries that separate their personal and professional relationships/roles in all contexts (e.g., face to face, virtual dietetic practice, social media).	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d) Obtain consent prior to touching a client.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
e) Refrain from entering professional relationships when current or previous personal, financial, employment and/or legal affiliations would compromise professional services or integrity.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
f) Ensure that boundary crossings that cannot be avoided (e.g., treatment of family/friend in specialized or rural practice) are reported to the appropriate authority (e.g. manager, team lead) and strategies to manage are documented (e.g. in the client file, record).	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
g) End professional relationships with clients, transfer care when professional boundaries cannot be maintained, and document, as required, how the situation was managed.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Standard 3- Client Centered Care

Registered Dietitians provide professional services that recognize and respect the unique needs, goals, values, and circumstances of clients.

To demonstrate this standard, the registered dietitian will:

Indicator	C	D	N/A
a) Acknowledge and respect the rights, dignity, and uniqueness of each client (e.g., ethnic/cultural background, religion, age, gender, social status, marital status, sexual orientation, political beliefs, physical/mental ability, corporate mission, and values).	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b) Collaborate with clients to identify and develop goals, plans, and interventions to meet their unique needs.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c) Acknowledge and respect clients' rights to autonomy and decision making over their own health.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d) Advocate on the client's behalf when required.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Standard 4- Collaborative Practice

Registered Dietitians partner with clients and **team members** in the collaborative and coordinated delivery of professional services.

To demonstrate this standard, the registered dietitian will:

Indicator	C	D	N/A
a) Contribute professional knowledge to discussions and interactions with clients, team members, and others.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b) Clarify and explain their professional roles and responsibilities in discussions with clients and team members.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c) Respect clients' and team members' perspectives and responsibilities, while acknowledging overlapping roles and scopes of practice.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d) Consult with and/or refer as required, when the client's needs may be more appropriately met by another Registered Dietitian or team member.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
e) Effectively manage conflict with clients and team members.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
f) Communicate clearly and respectfully with clients and team members at all times to facilitate collaboration.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Standard 5- Communication

Registered Dietitians communicate effectively, respectfully, and in compliance with applicable legislative and regulatory requirements when providing professional services.

To demonstrate this standard, the registered dietitian will:

Indicator	C	D	N/A
a) Be clear and respectful in all verbal, nonverbal, and written communication.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b) Maintain client's privacy and confidentiality in all forms of communication.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c) Use strategies to promote effective communication (e.g. active listening, empathy).	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d) Adapt communication to the needs of the clients and minimize barriers by incorporating relevant supports as available (e.g. interpreters when available, visual aids, technology, appropriate language, culturally appropriate resources).	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
e) Use strategies to facilitate client comprehension and learning (e.g., opportunity for questions, teach back, appropriate literacy levels).	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
f) Communicate with professional integrity and maintain appropriate boundaries in all communication channels at all times.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
g) Document professional communications accurately and in a timely manner as required.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Standard 6- Competence

Registered Dietitians are responsible and accountable for their continuing competence in order to provide safe, ethical, professional services.

To demonstrate this standard, the registered dietitian will:

Indicator	C	D	N/A
a) Provide professional services within the limits of their qualifications and personal level of competence.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b) Evaluate their own practice and participate in continuing professional development to identify and address learning needs.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c) Identify practice situations beyond their personal level of competence and consult, refer, and/or obtain further knowledge and skills to provide professional services.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d) Maintain competence in present area(s) of practice, incorporating evidence into professional services.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
e) Acquire the knowledge and skills to practice competently in emerging practice areas as required.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
f) Comply with the SCD continuing competence program, adhering to all applicable legislative and regulatory requirements.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
g) Voluntarily withdraw from practice if they self-identify that they are no longer able to provide safe, competent, ethical services (e.g., illness, substance abuse).	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Standard 7- Conflict of Interest

Registered Dietitians will avoid real or perceived **conflicts of interest** in which professional integrity, independence, or the provision of professional services could be compromised. Conflicts of interest which cannot be avoided must be disclosed and managed.

To demonstrate this standard, the registered dietitian will:

Indicator	C	D	N/A
a) Recognize any situations in which a conflict of interest could have an impact on their professional judgment.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b) Avoid any conflict of interest in which professional services could be compromised.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c) When a conflict of interest cannot be avoided, disclose to the appropriate authority (e.g. manager, team lead), manage the situation, and/or discontinue professional services.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d) Document any conflict of interest, the efforts to manage it, and the outcome(s).	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
e) Provide options for the provision of services and/or products when a conflict of interest exists.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
f) Refrain from accepting personal incentives (e.g., gifts, donations, funding, recruitment/referral fees) from service and/or product sponsors.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
g) Refrain from offering incentives to clients that places the Registered Dietitian's personal gain above their professional responsibilities.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Standard 8- Consent

Registered Dietitians obtain appropriate client consent in the delivery of professional services.

To demonstrate this standard, the registered dietitian will:

Indicator	C	D	N/A
a) Provide clients with complete and objective information regarding the risks, benefits, and options for treatment and/or professional services.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b) Obtain client consent prior to the delivery of services and document as required.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c) Inform clients in a timely manner of proposed changes to the agreed-upon intervention plan, and/or provide new information relevant to consent.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d) Respect the client's right to make choices, consult, and request additional information, refuse proposed interventions, and withdraw previously provided consent at any time.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
e) Obtain approval from the appropriate research ethics board and consent from clients participating in research studies.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Standard 9- Evidence Informed Practice

Registered Dietitians provide professional services using an **evidence-informed** approach.

To demonstrate this standard, the registered dietitian will:

Indicator	C	D	N/A
a) Access and critically appraise current and applicable evidence.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b) Incorporate current evidence, using critical thinking and professional judgment, when providing professional services.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c) Initiate and/or participate in evaluation and quality improvement activities (e.g., client questionnaires, chart audits, population health data review) to assess new and/or ongoing professional services, products and programs.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d) Use the feedback obtained from health service quality improvement activities to improve professional services.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
e) Contribute to new knowledge, as appropriate, by participating in data collection and practice-based research as feasible, conforming to applicable research ethics guidelines and processes.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Standard 10- Fees and Billing

Registered Dietitians ensure that fees and billing for professional services and/or products are fair, transparent, and in compliance with legislative and regulatory requirements.

To demonstrate this standard, the registered dietitian will:

Indicator	C	D	N/A
a) Be responsible and accountable for all billing under their registration number.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b) Ensure that fees charged for professional services and/or products are fair, reasonable, and justifiable.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c) Disclose fee schedules for all applicable professional services and/or products including accepted methods of payment, potential additional fees (e.g., cancellation fees, photocopying, mailing), and the process for fee dispute resolution, prior to provision of professional services.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d) Maintain comprehensive records regarding the delivery of professional services and/or sale of products.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Standard 11- Privacy/Confidentiality

Registered Dietitians uphold and protect the client's right to privacy and confidentiality of information collected during the delivery of professional services by complying with applicable legislative and regulatory requirements.

To demonstrate this standard, the registered dietitian will:

Indicator	C	D	N/A
a) Ensure client consent is obtained prior to collecting or disclosing personal information, unless duty to report obligations are required.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b) Access and collect only the client information that is essential to carry out the delivery of safe, competent, ethical services.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c) Use physical, technical, and administrative safeguards (e.g. locked filing cabinets, passwords) to protect paper-based, audio, video, electronic or other client information.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d) Avoid conversations about clients and/or professional services provided that can be overheard and/or breach privacy and confidentiality.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Standard 12- Professional Practice Obligations

Registered Dietitians protect the public by providing professional services in compliance with applicable legislative and regulatory requirements.

To demonstrate this standard, the registered dietitian will:

Indicator	C	D	N/A
a) Accept as their primary professional obligation, to protect and serve the public interest according to SCD Code of Ethics.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b) Hold a valid license and practice in compliance with applicable legislative and regulatory requirements.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c) Maintain a level of personal and professional conduct that upholds the integrity and dignity of the profession and sustains public confidence.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d) Comply with duty to report requirements in accordance with the applicable legislation, regulation, and/or organization/employer policies.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
e) Report abuse, incapacity, incompetence or unprofessional conduct to the appropriate authority, in accordance with applicable legislation, regulations and/or organization/employer policies.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
f) Take responsibility and be accountable to practice within their personal level of competence.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
g) Provide supervision, mentoring and direction to those under their supervision (e.g. students, nutrition practicum students, staff, volunteers).	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
h) Accurately represent their professional qualifications, experience, knowledge, and skills.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
i) Voluntarily withdraw themselves from professional practice when circumstances exist that impair their professional judgment, impact competence, or that may cause harm to clients.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
j) Ensure they have the appropriate practice permit/license to deliver services by virtual dietetic practice.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
k) Use provincially protected titles (e.g. Dietitian, Registered Dietitian, Professional Dietitian, PDt, Registered Nutritionist, RD,).	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Standard 13- Promotion/Advertising:

Registered Dietitians provide information and advertise their professional services and/or products in compliance with applicable legislative and regulatory requirements.

To demonstrate this standard, the registered dietitian will:

Indicator	C	D	N/A
a) Ensure that advertising is an honest and fair representation of professional services and/or products offered.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b) Adhere to the SCD Code of Ethics and refrain from using advertising that directly or indirectly:	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
i. creates unjustified expectations about the results;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
ii. compares the ability, quality, and/or cost of professional services with that of other Registered Dietitians;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
iii. takes advantage either physically, emotionally or financially of clients ; and	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
iv. endorses, promotes or recommends exclusive use of a product/brand used/sold as a component of professional services, unless supported by evidence.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c) Uses client testimonials to endorse professional services and/or products.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Standard 14- Record Keeping

Registered Dietitians document and manage client records and/or other data in compliance with applicable legislative, regulatory, organizational/employer requirements.

To demonstrate this standard, the registered dietitian will:

Indicator	C	D	N/A
a) Document, sign, and date complete, accurate, timely records related to professional services.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b) Maintain, retain, share, transport, store, and dispose of all paper and/or electronic documentation and records in compliance with applicable legislative, regulatory, and organizational/employer requirements.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c) Secure all personal client information through appropriate use of physical, technical, and electronic safeguards to protect the privacy and confidentiality of client information.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d) Maintain complete and accurate financial records for all relevant professional services.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
e) Maintain equipment service records (e.g. preventative maintenance logs) according to applicable legislative, organizational/employer, and manufacturer recommendations.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
f) Plan for the transfer or disposition of records when leaving a position or ceasing to practice.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Standard 15- Safety and Risk Management

Registered Dietitians adhere to occupational health and safety legislation, and infection prevention and control practices, to provide safe, competent, ethical professional services.

To demonstrate this standard, the registered dietitian will:

Indicator	C	D	N/A
a) Comply with occupational health and safety legislation, best practices in infection prevention and control, and organization/employer policies and procedures.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b) Maintain certification(s) related to infection prevention and control and occupational health/workplace safety, as applicable.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c) Contribute to and comply with risk management activities/requirements to promote a safe environment (e.g. working alone, environmental hazards, threats to personal safety).	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d) Comply with reporting and follow up procedures related to adverse events, emergency situations, and/or incidents involving workplace safety.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
e) Comply with food safety standards in the delivery of professional services.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
f) Participate, as required, in health service quality improvement activities to promote and support safe, competent, ethical professional services (e.g. questionnaires, chart audits).	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Appendix B- SCD CCP Learning Plan Format

In submitting your learning plan through the SCD website, you are required to answer the following questions for each learning goal:	
Context of Learning Need	Based on my self-assessment, this learning goal is related to (drop down):
Learning Need	Specific to the professional standard identified above, this licensing year my learning goal is...
Activities to meet my learning need	Identify learning activities you have planned/considered for this learning goal. Check all that apply:
End results expected	I expect the following as an outcome of my learning, check all that apply:
The following two questions are completed when you report on your learning plan at the end of the licensing year (April 1- March 31):	
Completion progress	This learning goal is (drop down menu): complete, partially complete, not complete. You have indicated that this goal is partial or not complete. Please provide explanation and resolution (eg. Planned learning activity not available, plan to carry forth this goal into next year).
Impact of Completed Goal	Reflect on the impact of your learning goals and activities to the enhancement of your practice as a professional.
